Website Registration Required by Employer?	<p>Employers will be notified when an employee files a claim and when it's approved, but exactly how employers will be notified, is to be confirmed (pending information from the state). We will monitor this and provide an update once confirmed. Employers will be able to request limited additional information, including the benefit amount and reason for the leave, that is necessary for the employer to coordinate FAMLJ benefits with other benefits for which the employee may be eligible</p> <p>The above pertains to registering with the state for the employer statement process. Employers have separate obligations for registering with the state for contributions and wage reporting (via the my FAMLJ +) - see the "Coverage Options and Funding" section on this state's Compliance Center page.</p>
